Hi Dave,

I believe we have the pilot capping data in the Battelle database.

Thanks,

Karl

Elaine - see Karl's question below. Could you ask WHG if they have tracked down any other water PCB data for the outer harbor?

Karl - I know we took a limited amount of samples during the pilot capping, did those show up in the database? The 1998 ROD has some historic WQ data for the outer harbor, but overall this is an area that hasn't been sampled much for water.

Hi Dave,

Would it be possible for you to see if your OU3 group has any outer harbor water PCB data besides those data in the Battelle database? I thought they may have found resources we don't have.

We're a bit low on that information.

Thanks for your help.
